

EPIC Track Printer Kiosk Station

for Tardy Tracking & Tardy Pass Issuance

The **EPIC Track Printer Kiosk Station** is an all-in-one unit designed to identify students and track tardy attendance check-in, quickly and with complete accountability, as they arrive at school. The system immediately issues a time-stamped tardy pass to students as confirmation of attendance check-in and to validate permission to navigate the school on their way to class.

A Simple Solution That Provides High Value at Low Cost to Schools.

The **EPIC Track Printer Kiosk Station** offers school districts an extremely user-friendly, affordable solution that supports their identification and accountability program. Students who arrive to school tardy, can quickly be processed and be on their way to class within seconds upon arrival. Depending on the school environment, the EPIC Track Printer Station Kiosk can be administered by office staff or used as a self-service tardy tracking station.

EPIC Track Printer Kiosk Station: Tardy Tracking How the System Works

The solution consists of an integrated thermal printer, built-in kiosk tablet, and EPIC Track Tardy App. The system is designed to perform tardy tracking and printed tardy pass issuance by:

1

Scan Student ID Barcode

The ID barcode scan identifies the student instantly using the EPIC Track App connection to the student database.

2

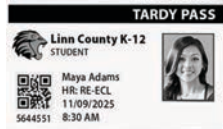

Tardy Check-In Instantly Recorded

The EPIC Track App captures & records details of the check-in including student ID data, a time-stamp of the scan, and their homeroom class.

3

Automatic Tardy Pass Printed

A paper tardy pass instantly prints from the kiosk station once data is processed. The student takes their pass and walks to class where they present it to their teacher or possibly staff en-route.

EPIC Track Tardy App

- Cloud hosted software.
- Tracks data in real-time.
- Check status of tardy students anytime.
- Generate reports on tardy activity history.

Kiosk Tablet

- Touch screen operated.
- Screen size ??w x ??h.
- iOS operating system.

Thermal Printer

- Prints automatically upon ID scan.
- Prints Images, barcodes, fields of color & text.
- Prints to thermal paper or labels.

Scan to watch how schools can use the EPIC Track Printer Kiosk Station to perform tardy tracking from start to finish in seconds with greater accountability and effective, cost-efficient data management. It's ability to automate and print tardy passes on the spot, makes the EPIC Track Printer Kiosk Station a valuable alternative to handwriting manual tardy slips!
