Track Assets as You Issue to Students

Do you have a high volume of tech ready to issue to students?

Do you want to track asset checkout data instantly using multiple administrators?

iPad & iPhone are trademarks of Apple.

WITH EPIC TRACK, YOU CAN!

EPIC Track allows administrators to issue and assign assets to students using a simple check-in/out process with the scan of a student ID & asset barcode or a series of drop down menus. Check items out quickly and efficiently while gathering all tracking data to manage assets on & off campus.

Track Students Across Campus for Contact Tracing.

Here's how...

By setting up checkpoints using stationary scanners, PC workstations or the EPIC Track app on a mobile device, staff and students may check-in/out at any classroom, library, student center, locker room, fitness center, etc. EPIC Track software tracks activity by identifying the student/staff, time stamps their visit and provides a database to generate reports in seconds. This makes contact tracing quick and easy to perform at a moments notice.

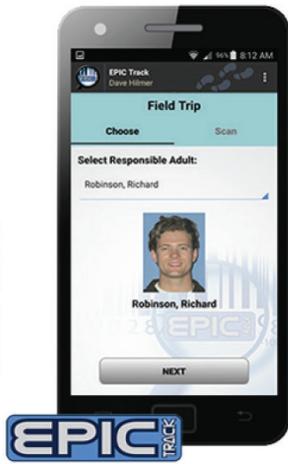

Set Location   **Scan ID Card**   **Choose In/Out**

EPIC Track App Features

> **Easy to Deploy**
> **Configure in Minutes**
> **Supports Apple, Android & Windows**
> **Works Online & Offline**
> **Use Your Current Data**
> **Access Data Anywhere**
> **No Additional Hardware Required**
> **Dynamic Reports Included**

Compatible with Android™ & iOS operating systems.

Maximized Connectivity

The EPIC Track App connects wirelessly to the EPIC Track Server, which is hosted on an Internet Cloud. Mobile devices connect via public WiFi, local WiFi or cellular.

If a connection is lost or cannot be established, data collected & managed by the EPIC Track App is stored directly on the mobile device. Data can be synchronized once a connection is made.

Ask Us About the EPIC Track Kiosk!

Perform EPIC Track check in/out at unattended stations throughout campus to obtain greater accountability.

Assign Assets to Staff & Students

Check items in/out and assign to students or staff such as:

> **Athletic Equipment**
> **Mobile Tablet Devices**
> **Lab Equipment**
> **Elective Class Tools**
> **Books**
> **And much more!**

Elliott's EPIC Track App is compatable with Android & IOS operating systems and is available for download at the Google Play & Apple App Store. Licensing required for full functionality.
