# EPIC Track Print Kiosk
Tardy Pass Issuance

The **EPIC Track Print Kiosk** *with Tardy Pass Issuance* is an all-in-one unit designed to perform automated tardy attendance check-in and issue printed tardy passes quickly to students, with complete accountability, as they arrive at school. The system records all transaction data collected at each kiosk, transforming manual tardy issuance into an automated, efficient process for greater efficiency and accountability.

EPIC Track Print Kiosk

A Simple Solution That Provides
## High Value at an Affordable Cost

The **EPIC Track Print Kiosk** *with Tardy Pass Issuance* offers schools an extremely user-friendly, affordable solution that automates the entire tardy tracking process and supports greater data analysis for student accountability. The EPIC Track Print Kiosk is an open source platform that supports easy integration and implementation. Depending on the school environment, EPIC Track Print Kiosks can be administered by office staff or used as a self-service tardy pass issuance station.

EPIC Track Print Kiosk: *Tardy Pass Issuance*
How the System Works

The solution consists of an integrated thermal printer, built-in kiosk tablet, and EPIC Track Tardy App. The system is designed to record the tardy and issue a printed tardy pass to the student by:
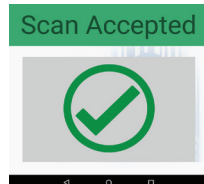

1 — **Scan Student ID Barcode**

The ID barcode scan identifies the student instantly using the EPIC Track Tardy App connection to the student database.
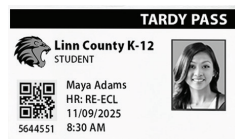

2 — **Tardy Check-In Instantly Recorded**

The EPIC Track Tardy App captures & records details of the check-in including student ID data, a time-stamp of the scan, and their homeroom class.

3 — **Automatic Tardy Pass Printed**

A paper tardy pass instantly prints from the kiosk station once data is processed. The student takes their pass and walks to class where they present it to their teacher or possibly staff en-route.

EPIC Track Tardy App
- Cloud hosted software.
- Tracks data in real-time.
- Check status of tardy students anytime.
- Generate reports on tardy activity history.

Kiosk Tablet
- Touch screen operated.
- Screen size 4.25"w x 6.75"h.
- Android operating system.

Thermal Printer
- Prints automatically upon ID scan.
- Prints Images, barcodes, fields of color & text in black & white.
- Prints to thermal paper or labels.

Watch a Demonstration!

Scan to watch how schools use the EPIC Track Print Kiosk to perform tardy tracking from start to finish in seconds, with greater accountability and effective, affordable data management. It's ability to automate and print tardy passes on the spot, makes the EPIC Track Print Kiosk a valuable alternative to handwritten manual tardy slips and supports data analysis.
